

Greece - Ithaca

Ithaca, the island of Odysseus is only a few miles from Cephalonia. Probably the most legendary of all Greek islands it is strangely still unspoilt by tourism and has preserved a simple lazy and welcoming atmosphere. It does not have spectacular beaches but lots of pretty coves that are best reached by small boat.

Exploring this unspoilt island by boat or on foot, you are able to discover the legendary places mentioned in Homer's Odyssey, small inland villages, ancient monasteries and deserted beaches.

We can arrange the hire of a small boat and a car.
